

Compression Spring Design Info Sheet

To provide a satisfactory compression spring, or to quote intelligently on inquiries, the following information needs to given:

Material _____

Working Specifications *(Fill in required data only)*

To work in _____ diameter hole

To work over _____ diameter shaft

To support _____ lbs. +/- _____ lbs. at _____ inch

To support _____ lbs. +/- _____ lbs. at _____ inch

Rate per inch _____ lbs. +/- _____ lbs. between length

Of _____ inch and _____ inch.

Maximum solid height _____

Direction of coil (right or left hand) _____

Type of ends _____

Suggested Specifications

Wire diameter _____

Outside diameter _____

Inside diameter _____

Free length _____

Total number of coils _____

Special Information

Squareness _____

Finish _____
